Going vertical just got easier.

RINN FLIP-RAY's rotating media clip lets you take bitewing radiographs horizontally or vertically with a simple flip. The included aiming ring allows you to capture accurate radiographs the first time, every time.

- Only one holder for horizontal and vertical bitewings
- Universal media clip accommodates Size 0, 1, & 2 Film or PSP
- Media holder integrated into arm — no separate biteblocks
- Lightweight plastic construction for easy handling and patient comfort.

PROMO CODE W71

Let's talk about your savings plan. Your images and time are valuable. Protect both with EZ-View mounts. Duplicate without removing films, capturing image and text in one easy step. Dark masking enhances contrast for improved viewing while non-glare, clear windows resist chemicals, spills, and scratches.

- **Save Time** — quick-loading top-entry pockets are designed for fast insertion
- **Save Space** — 60% thinner than typical paper mounts
- **Save Images** — high quality materials maintain clarity and protection for years
- **Save Money!** — Buy 4 packages, get a fifth package FREE.

PROMO CODE W70

Get more done with ONE. The new XCP-ORA™ One Ring & Arm Positioning System reduces the components needed for accurately positioning radiographic media with your RINN XCP® or XCP-DS™ biteblocks — Anterior, Posterior and Bitewings — to one arm, one ring.

- For Film and Sensors
- Autoclavable for low cost-per-use
- Simplifies positioning procedure with fewer parts
- Biteblocks are sold separately
