

# XCP-DS®

DIGITAL SENSOR HOLDERS

## for Kodak 6100

The comprehensive XCP-DS® digital sensor positioning system is your key to accurate positioning and perfect x-rays.

- Achieve distortion-free radiographs with paralleling technique
- Securely hold the sensor in place while precisely aligning the x-ray cone
- Custom holders designed for your digital sensor equipment
- Meet all x-ray needs with one kit — anterior, posterior, bitewing and endo
- Enhanced patient comfort and convenience with ergonomic design
- Easily assemble the components with patented color-coding
- Steam autoclave
- Kits and component parts available
